

Nancy K. O'Hare, PhD

Landscape Ecologist/GIS/Remote Sensing Specialist

nancyohare@gmail.com

1.305.298.7967

TECHNICAL SKILL

GPS (where is it and what is environ at fine scale)
GIS (relate location between scales)
Remote Sensing (seeing what human eye cannot)
Habitat Mapping (describe environ at broad scale)
Field ID of plants and animals
Data Bases (relating disparate data)
Data Analyses (why location matters)
Report Writing (inference & why others should care)
Editing (technical and peer-review)

Certified drone pilot

SOFT SKILLS

Detailed-oriented
Organization/Planning
Critical thinking
Creative solutions/Reframing perspective
Learning/Adapting

PROFESSIONAL GOALS

Realistic, creative actions to protect nature

Stopping dichotomy of Environment vs Economics

Healthy environment, Healthy people

A job that lets me connect personal and professional life insights to build a culture of sustainability and land stewardship

EDUCATION

PhD, Geography
University of Georgia

Master of Science, Biology
Florida International University

Bachelor of Science, Biology
Northern Arizona University

RELEVANT WORK EXPERIENCE

Post-doctoral research associate/technical program manager/UAV pilot
GIS Consultant
Editorial Assistant for regional scientific journal
Integrating legacy exotic plant data to NISIMS for regional NPS
Generating NVCS vegetation maps for NPS units in southeastern USA
Recommendations for mitigating land-use legacies on amphibian breeding habitat in coastal islands of Georgia
Biological monitoring and management recommendations of 2,5000 acre restoration project in Everglades over 10 years for NPS
Evaluation of functions of wetlands degraded by invasive plants in Everglades region for county and business
County park management plans in southern Florida
Identifying animals and plants in the field, including sitting on alligators, banding birds, trapping rodents, listening to frog choruses at night, avoiding plants that give me dermatitis
Extensive data analyses and writing experience to produce more than 60 technical reports and 15 peer-reviewed publications (examples [here](#)).

Employment

• Lab Manager, Small Satellite Research Lab, University of Georgia • Post-doctoral Research Associate, Department of Geography, University of Georgia. Technical project management for three Department of Defense contracts, remote sensing and GIS analyses, preparing monthly slide decks, and annual written reports, UAV data collection. Supervisor is Dr. Deepak Mishra, Department of Geography, University of Georgia	Feb 2026 Sep 2023 to Jan 2026
• Freelance GIS work for private companies (custom base maps, accuracy of public geodatabases, graphical summaries) https://geosense8.com/ • Internship Program Developer, Department of Geography, University of Georgia. Develop searchable data base and foster relationships with local and state private businesses, NGOs, and government entities to offer internships for undergraduate students that complement UGA Experiential Learning outcomes	Jun 2020–Aug 2023 Jan 2020–May 2020
• Editorial Assistant for journal <i>Southeastern Geographer</i>. Initially a one-year term position; then I was re-hired after one period based upon our previous productive and collegial work environment. Responsibilities included guiding submitted manuscripts through peer-review process, including finding reviewers, editorial review of manuscripts, drafting editorial decision letters, answering incoming queries, and promoting the journal at annual meetings. The manuscript submission and review workflow transitioned to an online system (ScholarOne) in mid-2017. Assisted with establishing keywords and populating a reviewer database. Participated in writing/manuscript preparation panel at annual meeting. Guest Edited Special Issue on Wild Foods, including soliciting manuscripts, finding reviewers, making final editorial decisions. Supervisors were Dr. Deepak Mishra and Dr. Hilda Kurtz, Department of Geography, University of Georgia.	Jun 2017–Jun 2019 and May 2015–Aug 2016
• Department of Geology, University of Georgia, additional funding for National Park Service project on exotic pest plant mapping and reporting. Develop geodatabase from field GPS Supervisor, assure compliance with NISIMS exotic plant reporting system for federal agencies. Dr. Lauren Serra, Congaree National Park	Nov 2016–Dec 2018
• Post-doctoral Fellow, Center for Geospatial Research, University of Georgia. Photointerpretation for mapping vegetation communities of Timucuan Ecological and Historic Preserve using both NVCS and SWAP classification systems, field surveys to verify plant communities, streamlining exotic pest plant mapping and reporting for regional National Park Service. Supervisor Dr. Marguerite Madden, Department of Geographer, University of Georgia	Sep 2015–Jan 2016
• Graduate Research Assistant, Center for Geospatial Research, University of Georgia. Photointerpretation to develop vegetation community maps for three National Park Service units in the Southeast Coast Network (Ocmulgee, Chattahoochee, and Horseshoe Bend). Suggested use of geopdfs rather than paper maps for field surveys. Supervisor Dr. Marguerite Madden, Department of Geography, University of Georgia	May 2014–Aug 2015

Wormsloe Graduate Fellow, University of Georgia. Vertebrate inventory of Wormsloe State Historic Site; research on biogeography of amphibians in Georgia Sea Islands. Supervisors Dr. Marguerite Madden and Sarah Ross, University of Georgia	Aug 2010-May 2014
- Everglades Research Group Inc., Co-founder and co-owner - Biological consulting company specializing in flora and faunal surveys, evaluating wetland ecosystem services of restored wetlands - Restoration of natural communities, primarily for federal or county level parks in Southern Florida - Wildlife surveys and management plans for three county parks - Impacts of invasive non-native trees on wildlife communities - Expert Witness for Sierra Club regarding wildlife in wetlands. United States District Court, Southern District of Florida, Case Civil # 03-23427 (WMH). Sierra Club versus Robert Flowers et al and Miami-Dade Products Limestone Assoc Inc - Defining project was 12 year contract for biological monitoring of a ~1,600 ha restoration site in Everglades National Park (Florida). Responsibilities included field surveys for plants and animals, GPS, GIS, data base management, data analyses, and report writing. Designed monitoring protocols, suggested changes to wetland remediation to improve quality of naturally colonizing plants - Autecological surveys of indicator taxa (Florida apple snails, South Florida slash pine) - Served as Project Manager for 7 years; oversaw all aspects of contract procurement, budgeting, field surveys for plants and wildlife, data analyses, report preparation. - More than \$2.2 million in projects o Self-employed; 50+ hours per week; reference Jonathan E. Taylor, Everglades National Park	1991-2010
Research Assistant, Plant Morphology, Fairchild Tropical Garden. One year post-Hurricane Andrew study of palm morphology. Supervisor Dr. Jack Fisher (retired)	1993
Instructor, Human Anatomy, Miami-Dade Community College. Two sections of lecture/lab (~40 students per section)	1993
Field Technician, Department of Biological Sciences, Florida International University. One year study on wildlife using the Hole-in-the-Donut restoration site and the natural wetlands of Long Pine Key, Everglades National Park	1991
Senior Biologist/Instructor, Department of Biological Sciences, Florida International University. Human Anatomy (1 section, ~45 students), Human Demonstration Anatomy (2 sections, ~45 students per section) and Comparative Vertebrate Anatomy (1 section, ~15 students),	1989-1990
	1986-1989

Selected Technical Reports

O'Hare, N.K., M. Madden, T.R. Jordan, T.R., D.L. Cotten, and A. Presotto. Vegetation mapping at Timucuan Ecological and Historic Preserve: Photointerpretation Key and Draft Vegetation Map. Natural Resource Report NPS/SECN/NRR—2016/XXX. National Park Service, Fort Collins, Colorado	2016
Jordan, T.R., M. Madden, D.L. Cotten, B.P. Adams and N. K. O'Hare. Vegetation mapping at Canaveral National Seashore: photointerpretation key and draft vegetation map— Final Report. Natural Resource Report NPS/SECN/NRR—2016/XXX. National Park Service, Fort Collins, Colorado	2016
Jordan, T.R., M. Madden, N. K. O'Hare, D.L. Cotten, and B.P. Adams. Vegetation mapping at Chattahoochee River National Recreation Area: photointerpretation key and draft vegetation map— Final Report. Natural Resource Report NPS/SECN/NRR—2014/XXX. National Park Service, Fort Collins, Colorado	2014
Jordan, T.R., M. Madden, B.P. Adams, D.L. Cotten, and N.K. O'Hare. Vegetation mapping for the National Park Service Southeast Coast Inventory and Monitoring Network: Horseshoe Bend National Military Park (HOBE) – Final Report. Natural Resource Report NPS/XXXX/NRR—2014/XXX. National Park Service, Fort Collins, Colorado	2014
Jordan, T.R., M. Madden, D.L. Cotten, B.P. Adams, and N.K. O'Hare. Vegetation mapping at Ocmulgee National Monument: Photointerpretation key and draft vegetation map. Natural Resource Report NPS/SECN/NRR—2014/XXX. National Park Service, Fort Collins, Colorado	2014
O'Hare, N.K. Faunal Inventory of Wormsloe State Historic Site, Savannah, Georgia	2012
O'Hare, N.K. and G.H. Dalrymple. Flora and fauna surveys of restored wetlands of the Hole-in-the-Donut Mitigation Bank of Everglades National Park. Final project report summarizing 12 years submitted to Everglades National Park. 500 pages	2010
O'Hare, N.K. and G.H. Dalrymple. Flora and fauna surveys of restored wetlands of the Hole-in-the-Donut Mitigation Bank of Everglades National Park. Quarterly and annual reports from 1996 thru 2009 submitted to Everglades National Park	1996–2009
O'Hare, N.K. and G.H. Dalrymple. Management plan for Matheson Hammock. Submitted to Miami-Dade County (Florida) Department of Parks and Recreation	1998
Dalrymple, G.H. and N.K. O'Hare. Miami-Dade County (Florida) Department of Parks and Recreation, 1998. Management plan for Chapman Field Park	1998
Dalrymple, G.H. and N.K. O'Hare. Big Cypress National Preserve (Florida), 1994. Faunal survey of Addition Lands to Big Cypress Addition Lands	1994
O'Hare, N.K., G.H. Dalrymple, and D.A. Riggs. Herbivory on Sargent's Cherry Palm on Elliot Key, Biscayne National Park. Submitted to Biscayne National Park (Florida)	1998

Teaching Experience

- Participated in online course and discussion thru UGA Center for Teaching and Learning: Learning Through Evidence Based STEM Teaching and Advanced Learning Through Evidence-Based STEM Teaching. Five to six hours online instruction for each course each week Fall 2016
- Guest Lecturer, two lectures for GEOG1125 Resources, Society, and the Environment (80 students) on water resources Oct 2014
- Guest Lecturer, two classes (combined lecture/lab) for GEOG8450 Geospatial Techniques (10 students), including lab and field exercises using GPS, ArcPad, and Structure from Motion software Jan 2014
- Guest Lecturer, two lectures for GEOG1125 Resources, Society, and the Environment (80 students) on water resources Oct 2013
- Volunteer Training, GPS and GIS for non-Geography students (25 students); developed training exercise in use of ArcPad and image rectification followed by 4 hour field mapping event Sep 2013
- Guest Lecturer, two laboratory exercises for GEOG4330/6330 Aerial Photographs and Image Interpretation (20 students) on image rectification procedures and sources of error Sep 2013
- Guest Lecturer, two laboratory exercises for GEOG8350 Advanced Remote Sensing (20 students), updated and taught laboratory exercises using lidar processing software Aug 2013
- Instructor, Miami-Dade Community College, taught two sections (40 students each) of Human Anatomy for one semester 1993
- Instructor, Florida International University taught three laboratory sections for two 1989–1990 semesters (40 students each section) on Human Gross Anatomy (cadaver labs); taught one lecture and laboratory section (10 students) of Comparative Vertebrate Anatomy (actual specimens)
- Graduate Teaching Assistant, Florida International University, Human Gross 1986–1989 Anatomy (cadaver labs) and Comparative Vertebrate Anatomy (actual specimens)

Voluntary Service

University & Professional Organization Service

- University of Georgia Athletic Association. Developed geoPDF maps to assist with parking during UGA home football games Aug 2014
- Franklin College of Arts and Sciences, University of Georgia. Graduate student representative to faculty search committee for interdisciplinary hire Spring 2014
- American Society for Photogrammetry and Remote Sensing. Annual Meeting, organized and chaired session on geospatial techniques for cultural applications Mar 2014

- University of Georgia Student Chapter of American Society for Photogrammetry and Remote Sensing, President. Submitted proposal (funded) to offset travel cost to national meeting and bring in outside guest speaker on design of unmanned aerial systems. Organized travel for 10 people to annual meeting in Louisville, KY. 2013–2014
- Geography Graduate Student Association, University of Georgia. Judge for Geography Undergraduate Conference Spring 2014
- Geography Graduate Student Association, University of Georgia. Co-representative to departmental colloquium committee 2013–2014
- American Society for Photogrammetry and Remote Sensing. Assisted Program Technical co-chairs in reviewing and organizing abstracts for 2014 annual meeting Fall 2013
- American Society for Photogrammetry and Remote Sensing. *Ad-hoc* member of Student Advisory Council, developed budget for two separate locations to hold a 4 day summer training program Summer 2013
- University of Georgia Student Chapter of American Society for Photogrammetry and Remote Sensing, Vice President. Organized two GIS Help Session open to the community 2012–2013
- Geography Graduate Student Association, University of Georgia, Co-Chair. Organized annual conference for undergraduates 2011–2012

Community Service

- Communications Coordinator, National Ladies Homestead Gathering, Athens-Clarke, GA Chapter. Monthly newsletter using Wild Apricot, posting events on chapter sites (Facebook, Mighty Network) 2021–2022
- Oconee Hill Cemetery (Athens-Clarke County, Georgia) 2013–2016
 - Mapping effort of location of veteran's graves in historic cemetery
 - Converting paper records to digital format
 - Overseeing two volunteer mapping sessions (~25 students each session)
 - Work secured \$25,000 donation to the cemetery
- Trail design for Boy Scouts of America Philmont Ranch (New Mexico). Team leader for University of Georgia's entry into ASPRS National Geo-League Challenge (placed 3rd nationally) Spring 2013
- Board Member, Florida Wildlife Federation, served out term of another member 2005–2006
- Board Member, Biff Lampton Memorial/Homestead Chapter, National Wild Turkey Federation; assisted with planning for re-introduction of Wild Turkeys into Everglades NP in 2001 and 2006 1999–2008
- Bird Banding (Ringling), Sfântu Gheorghe, Danube River Delta, Romania, 10 days Fall 2007
- Bird Banding (Ringling), each Fall, Cape Florida State Park (Florida) 2006–2009
- Everglades National Park, Volunteer-in-the-Park, Manned fall and spring migration mist net station (5 nets) under Master Bander Oron (Sonny) L. Bass, Jr. 2000–2001
- Everglades National Park, Volunteer-in-the-Park, Monthly counts of alligators and mark-recapture study to determine growth rates 1990–1996

Specialized Software Skills

-
- ArcGIS Pro
- Metashape (2D and 3D analyses of satellite and UAV imagery)
- Q Ground Control (UAV flight planning)
- Standardized office software for word processing, spreadsheets, email (Microsoft Office/Google Docs/Adobe Acrobat)

Funding, Grants, Awards

- Georgia Space Grant Consortium, \$10,000 2025
- GIS Analyses to select sites for field surveys for an endangered plant species; subcontractor to Georgia Department of Natural Resources 2018
- Designated Investigator on grant extension for exotic plant species geodatabase management, National Park Service \$12,000 2017
- Designated Investigator on grant extension for exotic plant species geodatabase management, National Park Service \$14,000 2016
- Designated Investigator on grant for streamlining exotic pest plant inventorying and geodatabase management for field GPS collection, National Park Service \$15,000 2015
- Invited member, Phi Kappa Phi Honor Society
- Oconee Hill Cemetery, Volunteer work secured \$25,000 donation to place gravesites of veterans in perpetual care 2014
- Wormsloe Fellow, University of Georgia, \$64,000 (\$16,000/annum) 2010–2014
- University of Georgia, Franklin College, allocation to student chapter of professional organization to bring in outside guest speaker, \$550 2013
- The Graduate School, University of Georgia, Emerging Leaders Program Fall 2013
- Academic Scholar, Northern Arizona University, Tuition waiver 1983–1986
- University of Georgia Graduate School, 2013, Travel Award \$350 2013
- More than \$2.2 million in contracts from federal, state, local, and university entities Everglades Research Group, Inc., company that I was co-founder/coowner 1994–2010
- Sigma Xi Grants in Aid of Research, Florida International University, \$500 1988
- Southeastern Division of American Association of Geographers. **N.K. O'Hare**. LIDAR Detection of Microtopographic Features in a Forested Landscape with low relief: Implications for Amphibian Breeding Nov 2016
- American Society for Photogrammetry and Remote Sensing. **N.K. O'Hare**, C.Y. Chou, M. Madden. Geovisualization for cultural resources Mar 2014

- Southern Forestry and Natural Resources Management GIS Conference. (SoFor GIS). Dec 2013
N.K. O'Hare and T.R. Jordan. Detection of number and location of canopy trees in hardwood forests using remote sensing: Counting the trees in the forest
- American Association of Geographers Annual Meeting. **N.K. O'Hare** and T.R. Jordan. Apr 2013
LiDAR to Detect and Characterize Small, Seasonal Ponds and Drainage Ditches in Forested Areas
- American Society for Photogrammetry and Remote Sensing Annual Meeting, Mar 2013
N.K. O'Hare et al. Using GIS to Design a Multi-Purpose Recreation Trail: UGA entry into GeoLeague Challenge
- International Society for Photogrammetry and Remote Sensing. **N.K. O'Hare**, C.Y. Aug 2011
Chou, and M. Madden. 3D Visualization of Cultural Landscape: Wormsloe State Historic Site
